[Tools4CAP](#), which stands for Innovative Toolbox empowering effective CAP governance towards EU ambitions, is a Coordination and Support Action in Horizon Europe (2023-2026) coordinated by [Ecorys](#), gathering 20 partner organisations.

The project aims to support the design and monitoring of the national Common Agricultural Policy (CAP) Strategic Plans (SPs) 2023-2027 and lay the foundations for sound preparation of Post-2027 Strategic Plans through a bottom-up adaptation of innovative methods and tools.

The [Academy](#) aims to provide a framework for capacity building and peer-learning, coordinated by [AEIDL](#) in close collaboration with other partners to develop an attractive and tailored training programme of 10 modules to meet the end users' needs. The first module, about the project [Inventory of methods and tools](#), aims to:
